

SEATTLE POLICE ATHLETIC ASSOCIATION, Inc.

PISTOL DIVISION

In our effort to maintain interest and promote training in marksmanship during war times, the Seattle Police Athletic Association takes pleasure in presenting to the shooting fraternity of the Northwest the following competitive programs.

While it has been necessary to make certain curtailments such as the awarding of medals and restrictions in our entertainment program, advancement has been made in greater range facilities and conveniences. The Association has installed picnic grounds, barbecue pit and outdoor range for the convenience and comfort of the competitors wishing to bring their families to enjoy a day's outing in conjunction with the shooting activities.

Personnel for the conducting of these events has been made possible by the co-operation of our Seattle Auxiliary Police. Those who attended the matches of 1944 had an opportunity of observing the excellent work done by these men who volunteered their services to make the matches possible. The Association extends its sincerest appreciation to the volunteers who have so liberally devoted their time and effort.

It is now planned that luncheons will be available to the contestants and their guests, but due to prevailing conditions, if these plans cannot be fulfilled, picnic facilities will be available for parties bringing their own lunches.
