4. Firearms will only be removed from or placed in transportation cases at the firing line benches. Firearms shall be pointed down range at all times while out of the transportation case.
5. No portable stands are allowed on any range. No shooting on any range in distances closer or further than the established target holders.
6. Shooters will fire at approved paper targets only, which must be attached to the SUPPLIED TARGET FRAMES. Targets may only be attached to the backers with TAPE or self-sticking and not staples. Shooters will only shoot at targets in a path directly in front of and down-range of them. NO CROSS-LANE FIRING.
7. Shooters are to fire only from designated firing points, on the firing line within the red zone.
8. Load/Chamber/Unload firearms ONLY when on the firing line and in the RED ZONE at the bench and when there are no individuals down-range of you. Muzzles must be pointed down-range.

13. During Cease-Fire breaks, all guns will be unloaded; the action opened and placed facing down-range on the bench with a chamber flag inserted. The alarm signal system shall be activated, and everyone must remain outside of the painted red zone prior to and during anyone moving forward of the shooting positions. Only when the last person has returned from down range shall the alarm signal system be deactivated.
14. Any misfired/misdirected rounds fired that do not impact the designated impact area must be immediately reported to the range office.
15. Upon completion of shooting, shooters must return the target backer to the storage area and clean up their firing points. This includes sweeping up of spent casings and disposal of such in the appropriate SPAA provided containers (Brass Buckets) and NOT in the garbage cans.
